

*than 20 000 Matebeleland and Midlands people of Zimbabwe massacred by the Fifth Brigade."*

*"One of the most painful aspects of the 1980s conflict for its victims is their perception that their plight is unacknowledged,"* the petition adds.

*"Officially, under the (former President Robert) Mugabe regime, the State blatantly denied any culpability for events during those years, and refused to allow open dialogue on the issue.*

*"It is only once all Zimbabweans have acknowledged this part of their history, that it can be put aside.*

*"This is also the belief of those who have motivated this project.*

*"In fact, it is believed that lasting reconciliation is contingent on truth."*

Therefore we, implore the Government of the United Kingdom and the other Bodies to fully take cognisance of this clear case of Genocide by both International Condemnation and by the establishment of an International Truth and Reconciliation body.

The current regime has no appetite to admit any wrong doing of any of its leaders both past and present. This attitude casts serious issues of credibility onto their current iteration of a Zimbabwean Truth and Reconciliation body.

Perhaps the "Lessons Learned" are those by the International Community in allowing such Genocide to be left 'unacknowledged' by the very perpetrators, who to this day rule Zimbabwe.

The signatures below are of the 6 organisers, 6 petitioners, and additional signatures are contained within the addendum garnered at activities organised by the Zimbabwean diaspora.
